People's financial debt is just the tip of the iceberg. There's also mental and emotional debt!

Once you calculate your normal financial expenses and debts then in the ASSET GROWTH program inside the members community or private sessions we transform your limiting stories and conversations from **victim** to **victor**, **broke** to **thriving**, **resentment** to **forgiveness** and **blessings**.

Huge Income Jump Just In The Nick Of Time

"The average baby boomer age 51+ I work with has done this assessment and discovers to their amazement that they have given away or hold resentment of unpaid work with an unpaid balance or value somewhere between \$200,000-\$500,000. WOW!" -Ruth Anne Wood

What number did you get adding up all the categories?

The good news is within 30-90 days of doing this assessment and changing the story around these mental and emotional debts my private Asset Growth / Scripting For Success clients have received unexpected pay raises, a jump of income from private clients, unexpected gifts in the form of college being paid in full or an unexpected source paying for medical expenses. They found better deals on purchases of houses, cars, education. Most importantly they started to recognize that they really are 6-7+ figure philanthropists and began to tap into the law of reciprocity and titling where unexpected ASSET GROWTH is returned to them 10 X's what they have joyfully given and energetically forgiven.

Some of my new clients and students have only been able to forgive 1-5% of all the unpaid work or mental or emotional debt in 90 days. Yet for them that's been a jump of \$5,000-\$50,000 in unexpected gifts, blessings and income.

Founder Used "Asset Growth" technology since 1997

The same week Ruth Anne Wood picked up the book "Think And Grow Rich" by Napoleon Hill, the seeds for her "Asset Growth" were planted. She did two exercises: "My Vocation: To share my healing vision of love and beauty through powerful art, teach, writing and healing touch" -Age 22
The second exercise was to write: 1) The amount of money I intend to have: \$20,000, 2) By March 24, 1997, 3) Through my writing, By late April 1997 I received an unexpected inheritance check for \$20,000. In the last 20 years through my writing/Success Scripting I've helped countless professionals clear mental and emotional blocks (using my background in Acupressure/ Oriental Medicine) and my love of theater and other creative/ holistic modalities. I've used this process to travel to over a dozen countries, meet and marry my 30/30 man, help clients experience love, fulfillment, abundance, clarity and financial goals!
