Are You Tired of “No Pain, No Gain”?

I am realizing through scripting that I can achieve goals and fulfill dreams without experiencing the concept “No pain, no gain”. I am reminded that I am the scripter and creator of my life and that I can access and pay attention to the positive energies and divine guidance always available for me, while inspiring others.

Through the Scripting for Success program, I am able to open my perspective and my mind, giving me the awareness of what I want and what is important, rather than trying to please or change others. Within a week of my first scripting lesson, I realized I had the resources to fulfill a longtime dream, which I thought was only possible after I met certain personal and financial goals. By the way, the Jag is blue. Through scripting, you are able to create your life the way you want it by valuing and honoring your priorities. Period. - Nadja Newhall, The Facilitator of “Happily Ever After”
